## DOMINO

### KINDER

# PREVIEW

Set 4

Introducing our educational resource tailored to the "Into Reading" program by HMH - the Kinder Sight-Words Domino! Crafted to complement this renowned reading program, our domino set is designed to make learning these 120 essential sight words a breeze for young learners.

Our domino set exclusively features the 120 sight words from the "Into Reading" program by HMH, ensuring a seamless integration with your child's reading curriculum.

Each domino card features two sight words from the module they are in, instead of numbers as a regular domino would be. This game provides a focused and immersive way for children to learn and reinforce these crucial sight words.

In Set 4, 12 words are worked on:

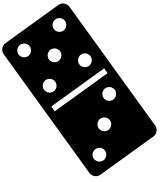

**Week 14:** got, here, of, on

**Week 15:** are, lot, not, was

**Week 16:** be, do, had, ten

Encourage social interaction and critical thinking as children match words on each card, reinforcing the sight words crucial for early reading success.

The Kinder Sight-Words Domino - HMH "Into Reading" Edition is an invaluable tool for parents and teachers looking to enhance their child's reading abilities while staying in sync with the "Into Reading" program. Watch as your child's reading skills flourish through engaging gameplay!

# HOW TO PLAY

## PREVIEW

### Materials needed:

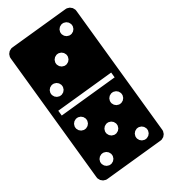

- A deck of cards from the same set.

### Preparation:

- Ensure that all the cards are well-shuffled and face down in a deck.

### Instructions:

1. Each player takes a specific number of word cards, depending on the number of players and the number of cards in the module. Typically, 7 word cards are dealt to each player in a game with two or three players.
2. Players begin by searching their seven cards for the ones containing the same word twice. The game kicks off with the player who has the longest duplicated word on their card. In case of a tie, the youngest student takes the first turn.
3. The first player plays one of their cards in the center of the table.
4. The next player tries to match one of their word cards in a way that one word matches one of the words on the ends of the word card placed on the table.
5. The game continues clockwise, and players must try to match their word cards in a way that one word matches one of the words on the ends of the word cards already placed on the table.
6. If a player cannot make a valid play with the word cards in their hand, they must draw a word card from the pile of unused word cards and pass their turn. If they still cannot make a play, they continue drawing until they can.
7. A player wins when they successfully get rid of all their word cards. In the event that the game becomes blocked, meaning no player can make a valid move, the player or players with the fewest cards emerge as the winners.

# HOW TO PRINT THE CARDS

Do not automatically print both sides. Print them manually.

PREVIEW

1. Try printing on regular paper first to ensure that the front and back align correctly. I recommend using thick cardstock for the final copies instead of regular paper.

2. Print the front side of the cards (pages 6 to 18), and then reload the printer with those pages.

3. Print the back of the cards (page 19 if you want big cards or 20 if you want small ones) on the same sheets where you printed the front, but on the other side. **I recommend using small cards.**

PREVIEW

4. Laminate them for durability.

5. Cut them with rounded corners or not, according to your preference. Follow the guidelines for a perfect cut.
